Endless Lamppost for Vogabyggð

Endless Lamppost is a customized 30 meter tall lamppost. It will be designed to look like the existing ones standing next to it, just a lot taller. *Endless Lamppost* will replace an already existing one. *Endless Lamppost* sets focus on standard city objects and the cityscape of Vogabyggð. By enlarging a normal lamppost you start questioning why the city looks the way it does. *Endless Lamppost* adds poetically to everydaylife.

A point of direction

Endless Lamppost is a gesture to the Icelandic winter and the numerous dark hours. *Endless Lamppost* functions as a sculptural landmark with iconic qualities.

Location

There are multiple interesting locations for *Endless Lamppost* in Vogabyggð. Along one of the major roads leading to Vogabyggð, secluded near the marina or in the city itself. Location should be decided together with inhabitants and architects.

The title and the height of *Endless Lamppost* is inspired by Constantin Brancusi's *Endless Column* (left).
